

**Hadrian's Wall World Heritage Site Management Plan  
Conservation, Farming and Land Management Draft 2010 Development Plan**

<b>Policies</b>	<b>Actions</b>	<b>Tasks to be undertaken</b>	<b>Lead Responsibility</b>	<b>Participating Organisations</b>
1c	1.0 Audit the values of the Site, their current condition and consider the resources the various organisations can bring to the conservation management of the Site and Buffer Zone.	1.1 Consider approaches adopted elsewhere to auditing Site values. 1.2 Establish agreement on scope and parameters of audit. 1.3 Identify resources required and agree responsibilities and implementation.	TBC	Natural England, English Heritage, HWHL, Local Authorities, Land managers.
1c	2.0 Develop an agreed conservation management framework to prioritise agreed values and identify conflicts, using guidance such as English Heritage's <i>Conservation Principles</i> and the Getty Conservation Institute's <i>Heritage Values in Site Management - Four Case Studies &amp; LAC</i>	2.1 Set up mechanism to develop framework. 2.2 Identify development team. 2.3 Agree parameters and development plan for framework.	TBC	English Heritage, Natural England, HWHL, Local Authorities, Site Operators, Land managers.
6b	3.0 Identify, prioritise and regularly review sites or areas potentially at risk from climate change.	3.1 Following audit of condition of the monument develop inventory or database of sites at risk based on EH HARR.  3.2 Develop schedule of regular review.	English Heritage	HWHL, Natural England, Local Authorities, Site Operators, Land managers.
6b	4.0 Monitor potentially harmful changes in flora, fauna, or the landscape	4.2 Develop inventory of sites at risk. 4.3 Develop schedule of regular review.	Natural England	HWHL, English Heritage, Local Authorities, Site Operators, Land managers.
7a	5.0 Survey the condition of exposed masonry not covered by the EH Asset Management Plan.	5.1 Assemble inventory of all relevant sites. 5.2 Identify survey requirements and responsibilities and resources required.	TBC	English Heritage
7i	6.0 Repeat the condition survey of the archaeology of the WHS under grassland and forestry carried out during the Raphael Project	6.1 Scope review. 6.2 Identify resource requirements and commission.	English Heritage	Natural England, Forestry Commission, Land managers.
7i	7.0 Develop a methodology for survey of Scheduled Monuments at Risk in the WHS, and carry out surveys every five years.	7.1 Develop inventory of site at risk based on EH HARR. 7.2 Develop schedule of regular reviews. 7.3 Identify responsibility and resources required and implement	TBC	English Heritage
8a	8.0 Encourage farmers and landowners to enter into the Higher Level Stewardship schemes to benefit the conservation and sustainability of the WHS.	8.1 Identify farmers not yet participating. 8.2 Develop programme of contact to promote HLS schemes, including agreeing responsibilities.	Natural England	HWHL, English Heritage, Site Operators, Land managers, CLBA, NFU.
8a	9.0 Encourage Natural England to prioritise projects within the WHS for support through the Scheme.	9.1 Develop and agree protocol with NE for prioritisation	HWHL	Natural England, English Heritage, Land managers.

<b>Policies</b>	<b>Actions</b>	<b>Tasks to be undertaken</b>	<b>Lead Responsibility</b>	<b>Participating Organisations</b>
8a	10.0 Review scope and application of HLS and Special Projects funding in North West and North East.	10.1 Define review requirements and responsibilities and implement through coordinated approach between NE North West and North East.	Natural England	HWHL, English Heritage.
8b	11.0 Establish a mechanism for monitoring sites identified as at potential risk from ploughing and apply appropriate solutions in cooperation with farmers.	11.1 Assemble inventory of all relevant sites. 11.2 Identify survey requirements and responsibilities and resources required. 11.3 Contact land managers concerned and identify appropriate solutions including HLS options.	Natural England	HWHL, English Heritage, Land managers, CLBA, NFU.
8b	12.0 Prioritise support for sites identified as at medium or high risk on the Heritage at Risk register.	12.1 Prioritise HARR sites within Action 1. Above	Natural England	
8c	13.0 Identify trees at risk from being blown over which could as a result damage archaeological remains, and negotiate their removal.	13.1 Identify sites at risk and assess site specific issues. 13.2 Identify options including HLS and agree actions with land managers.	TBC	English Heritage, Natural England, HWHL, Forestry Commission, Land managers.
8c	14.0 Identify trees whose root growth is likely to result in damage to archaeological remains and negotiate their removal.	14.1 Identify sites at risk and assess site specific issues. 14.2 Identify options including HLS and agree actions with land managers.	TBC	English Heritage, Natural England, HWHL, Forestry Commission, Land managers.
8c	15.0 Undertake comprehensive mapping of plantations within the WHS and its Buffer Zone.	15.1 Identify scope of undertaking, information already available and resources required. 15.2 Agree responsibilities and resourcing and implement.	Forestry Commission	English Heritage, Natural England, Land managers.
8d	16.0 Ensure that management plans for each SSSI take into account the needs of both the historic and natural environments.	16.1 Review existing plans to ensure OUV is taken into account. 16.2 Agree with SSSI managers how plans can be amended to include consideration historic environment.	TBC	English Heritage, Natural England, Local Authorities, Land managers.
8d	17.0 Identify and implement the necessary processes to develop a wider landscape strategy appropriate for the WHS.	17.1 Develop scope and structure appropriate for a landscape strategy. 17.2 Identify resource requirements and responsibilities. 17.3 Resource and implement.	TBC	Natural England, Local Authorities.
10e	18.0 Explore further with EH the use and expansion of generic scheduled monument consent for works on the Trail and its conversion to a Heritage Partnership Agreement under the new Heritage Protection legislation;	18.1 Develop and agree protocols with EH. 18.2 Disseminate protocols to land owners	HWHL	English Heritage
12j	19.0. Identify mechanisms for closer engagement between land management industries and relevant support agencies.	19.1 Identify existing mechanisms and assess their effectiveness. 19.2 Consider appropriate options with representatives of land management industries. 19.3 Develop mechanisms in light of those discussions.	HWHL	Natural England, Land managers, CLBA, NFU.
